IPS screen

The A1 is equipped with an IPS screen that provides a wide 178° viewing angle, making colors from any angle as realistic and perfectly saturated. What's more, it's also equipped with blue light filter technology, which guarantees to protect your eyes from fatigue. You can turn it on automatically in low light conditions. From today on, you can enjoy excellent picture quality without worrying about your eyesight!

HDR rendering technology

The Arzopa device is also equipped with HDR rendering technology. It restores real colors and, what's more, provides stronger contrast, which translates into a dynamic and detailed image. Arzopa guarantees an amazing viewing experience! What's more, you can turn HDR mode on and off at will - all you have to do is enter the OSD menu.

High compatibility

The Arzopa monitor shows great compatibility, so it will be very convenient to use. It is equipped with a Mini HDMI port and two USB-C ports. It will work perfectly with various models of phones, laptops, as well as consoles such as Switch, Xbox and PS4.

Comfort of use

A1 is not only a practical device, it is also a comfort device. The Arzopa portable monitor will be perfect for playing games, studying, watching movies or working. Thanks to its lightweight design, you will easily be able to take it with you on any trip! Enjoy excellent image quality wherever you are!
