Periodic battery self-test ensures early detection of a battery that needs to be replaced.

Intelligent battery management

Maximizes battery performance, life, and reliability through intelligent, precision charging.

Battery-protected and surge-only outlets

Reserves power capacity and run time for connected equipment that require UPS battery back-up while providing surge only protection for less critical equipment

Battery and surge protected outlets

Back up and protect your hardware and data during power outages, surges and spikes.

Surge only outlets

Protect secondary electronics from surges and spikes without reducing battery power used to run primary electronics during an outage.

Audible alarms

Provides notification of changing utility power and UPS power conditions

LED status display

Quickly understand unit and power status with visual indicators.
