Mobile, cloud and PC gaming – this controller can do it all. Play any controller-compatible iOS or Android game, use cloud gaming for your favourite PlayStation or Xbox titles, or streaming PC games directly on your phone while you're out and about. How's that for freedom? *Remote play app needed.

Stick the landing

Say goodbye to stick drift forever. With Hall effect joysticks, the Rovix Bluetooth Gaming Controller delivers flawless accuracy, whilst pressure-sensitive Hall effect triggers offer precise control in every game.

Twenty's plenty

Take full control with the Rovix's 20 buttons, including two programmable backside buttons for custom setups. Ready to lock in? The sturdy rubberised spring-loaded phone clamp fits any phone size securely for complete control and universal compatibility.

Mobile marathons

Don't fret about running out of juice – this controller is locked and loaded with a built-in rechargeable battery that offers up to 12 hours of playtime that lets you game on and on without interruption, wherever your adventures take you!

Protect and personalise

The Rovix comes complete with a protective hardcase for secure storage and travel, plus two pairs of swappable magnetic faceplates and a changeable D-pad for ultimate personalisation. All that's left to do is take it where you want to!
