EAN: 810069975719

Product Code: 1732894

R1,959

Introducing the Model D 2: The perfect blend of comfort, speed, and control. Crafted to fit the hand's natural contours, it minimizes fatigue during extended gaming sessions, allowing players to maintain peak performance for longer. With its ultralight weight and ergonomic shape, the Model D 2 lets you play at your best for as long as you want.

Formed to support the hand’s natural contours, the Model D 2’s ergonomic design offers confident control and lasting comfort, especially for those who use a claw or palm grip style.

And at just 58 grams, maneuvering the mouse feels quick and controlled, letting you start and stop on a dime for precision aiming without fatigue.

Featuring our BAMF 2.0 Sensor with 26,000 DPI and 650 IPS tracking, the Model D 2 tracks all your mouse movements with flawless accuracy. Its powerful sensor, in conjunction with lag-free 1,000 Hz polling, makes the mouse feel like an extension of your will in fast-paced games.
