

Moza Racing AMPCD Display Panel Flight display

Model: AS028

Manufacturer: MOZA RACING

EAN: 6973137271534

Product Code: 1734595

R4,749

A dedicated AMPCD panel for carrier-aircraft cockpit layouts, pairing a true square display with an authentic bezel and flexible mounting support for clean integration into your simulator setup.

True-to-Life 7.1'' Square Displays

The DDI and AMPCD modules feature true 7.1” square active display areas with an 800×800 resolution, closely matching the proportions and viewing experience of the real aircraft. This provides a vastly superior sense of realism compared to conventional cropped or rectangular display solutions.

Snap-On Magnetic
