

i-tec Thunderbolt 4 Intelligent Dual Display Docking Station + Power Delivery 90W

Model: TB4INTGDUAL4KDOCPD

Manufacturer: I-TEC

EAN: 8595611707575

Product Code: 1735507

R3,483

Experience a breakthrough in docking technology with a high-performance, universal docking station designed for full remote management. Thanks to its dedicated LAN port, IT administrators can control the dock from anywhere *. The remote management software is available as an optional add-on and can be purchased at any time. Of course, the docking station operates at full functionality even without it; the only limitation is the absence of remote management features. And best of all – Manageability works without a host connection — just power and LAN required. NOTE: The software is available for Windows computers only.

A next-generation, high-performance Thunderbolt” 4 docking station that delivers output to up to two external 4K monitors or a single 8K display. Compatible with virtually all notebooks equipped with USB-C**, USB4, or Thunderbolt” 3/4/5 ports, and supporting all major operating systems.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

With multiple USB ports (including USB 3.2 Gen 2 with speeds up to 10 Gbps), a Thunderbolt” 4 port offering either 8K video or ultra-fast 40 Gbps data transfer, and a reliable, high-speed LAN connection, this docking station is the ideal solution for demanding professionals. Naturally, it also supports up to 90W power delivery to keep your notebook or tablet charged.

- Connect a single 8K display or up to two external monitors in resolutions up to 4K**
- Power delivery up to 90 W
- 2× DisplayPort and 1× Thunderbolt” 4 port available
- 5× USB ports: 1× USB-A (10 Gbps, BC 1.2 fast charging), 2× USB-A (10 Gbps), 1× USB-A (2.0), and 1× USB-C (Gen 2, 10 Gbps)
- Intelligent Gigabit Ethernet (RJ-45) provides reliable, high-speed connectivity with 10/100/1000 Mbps support and seamless remote management functionality
- Combined audio/microphone jack
- Kensington lock slot provides anti-theft protection, ideal for shared office spaces or public areas
- Power switch on the docking station allows maximum energy savings
- Supports Windows 10/11, macOS, iPadOS, Android, ChromeOS, and Linux (latest versions)

* Because of the way Thunderbolt” technology works, i-tec DockMate can manage the docking station itself (such as remote on/off, scheduled power saving, or firmware updates), but it cannot directly control individual ports like USB, LAN, audio or display outputs.

** Only one external monitor is supported when connected via a USB-C port.
