

Thrustmaster 4060174 gaming controller accessory Holder

Model: 4060174

Manufacturer: THRUSTMASTER

EAN: 3362934002473

Product Code: 1736389

R2,530

About TM Flying Clamp

The TM Flying Clamp is the first mounting system specially designed by Thrustmaster for its flight simulation accessories.

Crafted of 100% metal, the TM Flying Clamp is a must-have for gaming sessions without a cockpit, ensuring realistic, safe and comfortable use.

The TM Flying Clamp works with desks and tables from 0.6–1.8 inches / 15–45 mm thick.

This adaptable, non-slip system can be installed and removed quickly, easily and securely.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Developed to facilitate enhanced gaming ergonomics for all users, the TM Flying Clamp is a solidly-built solution for use with popular Thrustmaster product ranges (TCA Airbus Edition [Sidestick, Quadrant and Quadrant Add-On], and T.16000M FCS), as well as with the TWCS throttle.

The TM Flying Clamp is an ambidextrous system, and can be used in two different ways — either to the left or to the right of the virtual pilot.
