ND Filters Set (ND8/32/128) DJI Air 3S

Model: CP.MA.00000834.01

Manufacturer: DJI

EAN: 6941565991539

Product Code: 1736499

R2,808

ND filter set for DJI Air 3S (ND8/32/128)

Gain full control over your shutter speed and create spectacular shots even in the most challenging lighting conditions. ND8, ND32 and ND128 filters allow you to fine-tune the amount of light reaching the lens, so you can use lower shutter speeds and get perfectly smooth, cinematic shots. Whether you're filming in bright sunlight or high-contrast conditions, these filters eliminate the risk of overexposure, ensuring perfect exposure and complete control over every frame.

Lightweight design and perfect fit

Each filter weighs just 2.84 grams, which minimizes additional weight on the drone and does not affect its stability in flight. The filters are precisely matched to the DJI Air 3S cameras, both the wide-angle camera (17.15 × 14.53 mm) and the medium telephoto camera (15.08 × 13.25 mm). With this design, you'll get crystal clear shots without optical distortion.
