Model: 6818C004

Manufacturer: CANON

EAN: 4549292238389

Product Code: 1736628

R835

The KS-125KB Calculator is a versatile 12-digit calculator that covers all of your basic functions. The calculator is designed to be convenient, coming with dual power, meaning that it is powered by both a battery and solar power. The calculator offers grand total memory within a slim body and a lifted and tilted monitor, while a choice of colour lets you express your personality. Finally, it is designed using recycled plastic and a plant-based renewably sourced biopolymer called NuPlastiQ, which makes it an eco-friendly choice.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
