it the most. With a combined power of 531W (300W(AC) + 231W(DC)), you can easily power multiple devices at the same time. Thanks to the wireless charging pad (15W), you can also easily charge devices wirelessly.

Portable

Weighing 3.3 kg, the portable power supply is light, compact and easy to lift thanks to the handle without sacrificing sturdiness.

Outputs and power

The PPS330-UK has a large number of connection options, divided over 4 groups:
-2 BS1363 UK outlets (300W, 600W peak) pure sine wave alternating current (AC)
-3 USB-A ports (3x 5V-2.4A 12W) (DC)
-1 USB-C ports (1x PowerDelivery 60W in/out) (DC)
-1 12V car connection (120W) (DC)
-1 Wireless charging platform (15W) (DC)

Max power per group:
-Sockets (300W, 600W temporary peak)
-USB ports (96W)
-12V (120W)
-Wireless (15W)

Charging

The PPS330-UK can be charged in 3 ways, the USB-C port the 12V car plug, or the optional solar panel. It takes about 5 hours to fully charge the device via the USB-C port, or 4.5 hours by connecting it to the optional 100W solar panel. (PSP100) When the PPS Offgrid is charging, it can even supply power to connected devices at the same time. If the mains voltage suddenly fails due to a power failure, or you stop charging the PPS and take it offgrid, it will continue to supply power to the connected equipment.

Battery life

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

The battery life depends on the load, the sum of the power supplied to all connected devices. The expected battery life can easily be read in the runtime table, see images.

Summary;
Load in Watts vs. battery life:
50W = 6h
80W = 4h
150W = 103 min.
300W = 47 min.

LED panel with SOS mode

The LED light panel makes it easy to use this portable power station in dark environments such as off-grid, at night at the campsite or during a power outage. Thanks to the SOS flashing mode of the LED panel, you can easily attract attention in an emergency.

Sustainable

Designed with sustainability in mind, this portable power supply has a housing made of 60% recycled plastic and comes in sustainable packaging. The warranty is 2 years.
