R5,681

ARZOPA D14 PRO 14" Digital Photo Frame (gold)

The ARZOPA D14 PRO digital photo frame features a 14-inch LCD screen with a resolution of 2160 × 1440 pixels, allowing you to comfortably view high-quality photos and videos. The 3:2 aspect ratio, 300 cd/m² brightness, and 1000:1 contrast ratio ensure good readability and a clear image, while the wide viewing angles allow you to comfortably view content from various locations in the room. The model offers 64 GB of internal storage, a touchscreen supporting 10 simultaneous touch points, 2.4 GHz and 5 GHz Wi-Fi, as well as USB-A and USB-C ports, an SD card reader supporting up to 128 GB, and a 3.5 mm headphone jack. Rounding out the features are automatic image rotation, built-in 2 × 2 W speakers, and an elegant gold casing with a metal stand, making the frame look great both at home and in the office.

A crisp, detailed image

The large 14-inch screen with a resolution of 2160 × 1440 pixels lets you view photos in high quality, revealing even the finest details. With 99% sRGB color gamut coverage, colors appear natural and accurately reproduced, resulting in an attractive presentation of your photos. A brightness of 300 cd/m² and a contrast ratio of 1000:1 ensure good image readability in various lighting conditions. Additionally, wide viewing angles ensure that photos remain clearly visible even when viewed from the side.

Intuitive Operation Every Day

The ARZOPA D14 PRO is equipped with a capacitive touchscreen that supports 10 simultaneous touch points, making navigation through menus and photo galleries convenient and intuitive. Smooth performance is ensured by the powerful RK3566 processor, supported by 2 GB of RAM, which guarantees a comfortable user experience. The built-in Arzopa software is designed for easy management of the frame’s features, making everyday use of the device simple and convenient.

Storage for Your Favorite Memories

The built-in 64 GB of storage allows you to save a large number of photos and videos without needing additional storage media. If needed, storage can be expanded using SD cards or USB flash drives with capacities up to 128 GB. The device is also equipped with a USB-C port, which allows you to transfer photos and videos from a Windows computer. Additionally, the frame is equipped with a Wi-Fi module operating on the 2.4 GHz and 5 GHz bands, which provides network connectivity and support for the built-in Arzopa software.

Adjusts the image to the orientation

The built-in gravity sensor automatically detects the device’s orientation and rotates the displayed photos accordingly. This allows the frame to be positioned both vertically and horizontally without the need to manually adjust the settings. It makes it easy to adapt the photo display to the device’s location. The metal stand ensures stability, and the gold casing gives the frame an elegant look that blends well with various interior designs.

View photos and videos on a single device

The frame supports popular photo formats such as JPG, JPEG, PNG, and WEBP, as well as videos in MP4 and 3GP formats. This means that most files can be played without the need for prior conversion. Built-in 2 × 2 W speakers allow you to play videos with sound, and the 3.5 mm headphone jack lets you connect headphones or an external audio device. The low power consumption of 10.5 W during operation means the device can be used for long periods while maintaining low energy usage.

Included in the set

- ARZOPA D14 PRO 14" digital photo frame
- Metal stand
- 20 W PD power adapter
- User manual

Manufacturer	ARZOPA
