Camera resolution: 1080p + IR | Built-in microphone: Yes | Power supply, W: 65 | Battery capacity, Wh: 52 | Panel type: WLED | Display brightness, cd/m²: 500 | Refresh rate, Hz: 120 | Glossy display: No | Chipset: Intel SoC | Built-in speakers: Yes | Intel Smart Cache, MB: 6 | Number of battery cells, pcs: 3 | Battery weight, kg: 0.21 | Green certifications: Energy Star | Green certifications: EPEAT Gold | Short summary:

Dell XPS 13 (DX13260)

The Dell XPS 13 combines premium design, an exceptionally compact form factor, and excellent performance for everyday use. The CNC-machined aluminum chassis makes the laptop durable yet easy to carry, while its thickness of just 12.7 mm and starting weight of approximately one kilogram make it Dell?s thinnest and lightest XPS laptop.

This configuration combines an Intel® Core? 5 320 processor, 16 GB of LPDDR5x memory, and a 512 GB PCIe Gen4 NVMe SSD to deliver responsive performance for office applications, web-based work, entertainment, and multitasking. The processor?s integrated NPU supports locally processed AI features, while Intel® Graphics handles everyday graphics workloads.

The 13.4-inch 2.5K InfinityEdge touch display offers 500-nit brightness, 100% DCI-P3 color coverage, and an adaptive 30?120 Hz refresh rate. Dolby Vision, VESA DisplayHDR 400, and Eyesafe® technology further enhance the viewing experience. A backlit keyboard, glass touchpad, Windows Hello-compatible IR camera, and quad-speaker Dolby Atmos audio make the laptop comfortable to use for both work and entertainment.
