Product Code: 1737880

R1,152

The Conceptronic AVODIA02W 2-Outlet EU Smart Plug allows users to control two connected electrical devices through a single smart plug. It connects directly to a 2.4GHz Wi-Fi network and can be managed remotely using the compatible mobile app.

Timer and scheduling functions make it easy to automate connected lights, appliances, and other equipment based on daily routines. The hub-free design ensures quick installation without requiring an additional control device.

Supporting a maximum load of up to 16A, the Conceptronic smart plug is suitable for home and
