Easily display the live image from the WLAN outdoor camera on devices with a screen using voice controls

Easy operation from anywhere via the app

Control the smart surveillance camera from anywhere thanks to the Hama Home app

Infra-red night vision

Enables detailed recordings in the dark

IP65 waterproof

Guarantees reliable camera surveillance even in rain and snow, the IP65 protection class protects against water jets from all directions

Surveillance camera with light

The integrated lighting enables detailed monitoring of the DVI input, patio, courtyard, and garden

Motion detection and tracking

If the surveillance camera detects and tracks movement, you can receive a push notification or have a recording started

Security system

When the alarm is activated, the integrated siren sounds immediately as soon as movement is detected

Sleep mode

Activate private mode if you do not want the WLAN camera to film or record

MicroSD card slot

Memory cards up to 256 GB offer sufficient space for extensive video recordings

2-way audio

Microphone and loudspeaker work like an intercom system
