stunning visuals at a resolution of 3168 x 1440 pixels. With a refresh rate of 144 Hz and HDR10+ support, every image is vibrant and smooth. The powerful Snapdragon 8 Gen 5 processor, coupled with 8 GB of LPDDR5X RAM, supports efficient multitasking and handles demanding applications with ease. Coupled with 256 GB of internal memory, the Edge 70 Max is perfect for capturing moments with its versatile camera setup, including a 50-megapixel main camera with advanced photography features like Auto Motion Capture and Night Vision.

Designed for durability, the device is water- and dust-resistant, rated IP68, and features a robust frame of aircraft-grade aluminum with Corning Gorilla Glass 7i protection. Security is enhanced through advanced features such as face recognition and an under-display fingerprint reader, ensuring that users can access their device safely and conveniently.
