LENOVO THINKSTATION P3 TINY GEN 2

Big Performance From a Tiny Workstation

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Engineered to go where others can’t, the ThinkStation P3 Tiny Gen 2 workstation offers uncompromising performance while being 96% smaller than a traditional desktop. At 1L in volume, the industry’s smallest workstation combines the power of Intel® Core™ Ultra (Series 2) with Intel vPro® processors and NVIDIA RTX™ graphics in a simple, efficient design.

Accelerate AI Workflows with Integrated NPU and Professional Graphics

The built-in NPU, CPU, and iGPU deliver up to 36 TOPS for AI inferencing, while NVIDIA RTX™ A1000 graphics adds another 108 TOPS for advanced ray tracing and AI acceleration to enhance compute tasks. Together, they provide a dependable solution for tasks like computer vision, real-time data insights, and more — right at your desk or on location.

CREDIBILITY & COLLABORATION

Sustainability

Our goal is to provide smarter technology that builds a brighter, more sustainable future for our customers, communities, and the planet. That's why we pursue industry leading labels and certifications that demonstrate our commitment to sustainability in product design. Together, we can build a smarter future for all.
