ROG GR120 ARGB PWM Fan Hub

The ROG GR120 ARGB PWM Fan Hub exclusively supports up to fourteen ROG Eurux GR120 ARGB fans, with two SATA power inputs for maximum wattage availability. For ultimate reliability, it includes electrical fuses to protect against overcurrent, while built-in magnets help ensure simplified installation and secure placement.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
