

Epson EH-LS5000

Model: V11HC39040

Manufacturer: EPSON

EAN: 8715946748795

Product Code: 1739264

R43,642

4K Matter-support home cinema projector with 3LCD laser technology and AI image processing for immersive viewing up to 500 inches.

Transform your home entertainment with a premium big-screen experience for movies, TV shows, sports, and gaming. Matter-support and powered by Epson's 3LCD laser x AI imaging technology, this projector combines stunning 4K clarity with 2,500 lumens of brightness to deliver vibrant, immersive, cinema-like images on screens up to 500 inches.

Cinematic 4K laser clarity up to 500 inches

Detailed 8.3 million-pixels visuals up to 500 inches with 2,500 lumens of brightness, powered by Epson 3LCD laser technology to deliver vivid, natural colours with no rainbow effect, making it ideal for modern media rooms.

AI image enhancement technology

Upgraded TV chip and high-contrast performance work together to enhance overall image clarity. AI-powered processing automatically optimises colour saturation while lower resolution content is improved through intelligent upscaling—delivering a sharper, more vivid, and more immersive viewing experience.

Flexible installation for modern media spaces

Designed for easy placement, the centred lens, wide lens shift of ±59% vertical and ±21% horizontal, compact body and quiet operation help the projector fit cleanly on shelves, furniture or ceiling mounts with professional-looking alignment.

Your content and sound, your way

Use your preferred streaming stick, including Fire TV, Apple TV, Google TV or Roku, for a familiar interface with fewer software issues. HDMI eARC, Bluetooth 6.0 and a 3.5 mm audio output make it easy to pair soundbars, AV receivers, wireless speakers or headphones.

Smart home integration made simple

Matter support allows seamless integration with connected home ecosystems. Control the projector through Google Home, with voice control available and simple on-screen Matter setup.

Long-life solution with a 5-year warranty included

With a 20,000-hour laser light source, instant on/off performance and no lamp replacements, the EH-LS5000 is built for frequent viewing with low maintenance—all backed by a 5-year warranty for added peace of mind.
