Product Code: 1739339

R1,730

High Power Qi2 Wireless Charging

Take your iPhone charging to the next level with the Verbatim Qi2 Charge ‘n’ Drive “Ice Cooling” Magnetic Wireless Car Charger. Offering up to 15W* of power, it charges iPhone models (16/15/14/13/12) at twice the power of the original Qi standard. Whether you’re navigating or streaming music, your iPhone stays charged and ready. Plus, it supports Qi2-compatible Android devices, ensuring universal compatibility for all your charging needs.

The RGB backlight adds style to the setup, making nighttime charging effortless and contributing a vibrant glow to your dashboard, enhancing the overall driving experience.

Stay Cool, Charge Efficiently

Featuring an advanced ice-cooling system, this charger uses a smart cooling fan and semiconductor chilling plate to prevent overheating and ensure optimal charging efficiency. Whether you’re in a hot car or on a long drive, this technology keeps your device cool and charging at maximum speed without interruptions.

Flexible Mounting Options

Mount your phone wherever it's most convenient with the charger’s versatile mounting options. Choose from ventilation, dashboard, or windscreen mounting, thanks to the included ventilation holder and suction cup holder. The 360° rotatable design ensures you can always find the perfect viewing angle for navigation, calls, or music control.
