Intellinet 24-Port Gigabit Ethernet PoE+ Switch with 2 SFP Ports IEEE 802.3at/af (PoE+/PoE) Compliant, PoE Power Budget of 370 W, Two 1G SFP Open Slots, 19" Rackmount

Model: 561891

Manufacturer: INTELLINET

EAN: 766623561891

Product Code: 1739370

R8,322

Unmanaged PoE Switch with 26 ports - 24 RJ45 and Two SFP, High-Power PoE+

The Intellinet Network Solutions 24-Port Gigabit Ethernet PoE+ Switch with 2 SFP Ports passes both data and electrical power to a number of PoE-compatible devices via standard Cat5e or Cat6 network cables. Equipped with 24 Gigabit Ethernet ports, this switch can power wireless LAN access points and bridges, VoIP phones, IP video cameras and more while delivering network speeds up to 1,000 Mbps.

Power over Ethernet 802.3at

This high-powered switch supports the IEEE 802.3at protocol and can inject up to 30 watts of power per port. IEEE802.3af- or IEEE802.3at-compliant devices attached to the switch need no additional power to help avoid the time and expense of electrical rewiring and minimize the unsightly clutter of power supplies and adapters on ceilings and walls. Any mix of PoE and non-PoE devices is supported, and thanks to its short-circuit, overload and high-voltage protection function, your equipment is well-protected. For devices that are not 802.3at/af compliant (legacy wireless access points or network cameras), we suggest the use of an Intellinet Network Solutions PoE/PoE+ Splitter.

Eliminate Bottlenecks with 26 Gigabit Ports

Equipped with 24 auto-sensing 10/100/1000 Mbps RJ45 Gigabit Ethernet ports, this switch offers plenty of performance for your computers, servers and other networking devices. In addition, two small form-factor pluggable (SFP) GBIC module slots provide fiber connectivity for greater distances. These are not shared combo-ports but true Gigabit ports, pushing the total available bandwidth up to 52 Gbps.
