

Canon EF-EOS R Control Ring Mount Adapter

Model: 2972C005

Manufacturer: CANON

EAN: 4549292115710

Product Code: 1739835

R5,374

Connect your EF or EF-S lens to your new EOS R system camera with this specially designed adapter. This adapter features a lens control ring, which can be programmed via the camera’s menu for customised adjustment of various settings such as aperture, shutter speed, ISO or exposure compensation - all while your EOS R camera is still at your eye. Canon EOS R adapters are weather-sealed against dust and moisture, ready to be used on location.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
