R2,236

Telesin protective case with handle for Insta360 Ace Pro / Ace Pro 2

The Telesin Protective Case for Insta360 Ace Pro / Ace Pro 2 combines rugged construction with a functional grip, providing quick access to key functions and stable camera handling in any conditions. Made of aircraft-grade aluminum and silicone - it offers solid protection and more comfortable handling when vlogging or creating dynamic shots.

Convenient shutter button

The integrated seesaw-type trigger eliminates the problem of hard, unresponsive buttons known from some grips. The mechanism used works smoothly and precisely, allowing you to quickly start recording with a light touch.

Horizontal and vertical mounting freedom

The mount allows for side or bottom mounting, so you can comfortably record both vertically and horizontally. At the same time, such a solution makes it easy to change the orientation without having to rewire the entire setup, which streamlines work in the field.

Design tailored for Ace Pro / Ace Pro 2

The case was designed specifically for the Insta360 Ace Pro and Ace Pro 2 models, ensuring a precise fit and stable seating of the equipment. The aircraft-grade aluminum frame increases resistance to damage, while silicone elements improve grip comfort and reduce slippage. In addition, the quick-release mechanism allows you to disconnect the battery without removing the camera from the case.

Even more possibilities - accessories and memory card slot

The housing is equipped with a 1/4" thread on the bottom, which allows mounting on tripods, mounts or booms. An additional Cold Shoe mount allows you to install microphones, lights and other accessories, expanding the functionality of the kit. You'll also find a spring-loaded TF card slot in the mount.

Included

- Metal housing
- Metal button with crossbar
- Metal handle
- Wrist strap
- T-type wrench
- ARRI positioning pins
