Aurzen Eazze D1G Multimedia Projector

The Aurzen Eazze D1G is a compact multimedia projector that combines excellent image quality with smart features. Thanks to its built-in Google TV system, it provides quick access to popular streaming apps without the need to connect additional devices. HDR10 support, native Full HD resolution, and automatic image adjustment make this projector ideal for watching movies, gaming, and presentations.

Built-in Google TV – access to thousands of apps

The projector is equipped with Google TV, which allows you to use over 10,000 apps available on the Google Play Store. This lets you launch services like Netflix, YouTube, Disney+, and Hulu directly. There is no need to connect additional streaming devices, as all smart features are available immediately upon turning on the projector. The system also allows you to create user profiles and tailor content recommendations to the preferences of household members. Kids Mode helps control the content viewed and the time spent in front of the screen.

Voice control and integration with the Google ecosystem

The Aurzen Eazze D1G works with Google Assistant, allowing you to control the projector using voice commands. Searching for movies, launching apps, and controlling playback is fast and convenient. Built-in Chromecast allows you to wirelessly stream content from your smartphone, tablet, or laptop to a large screen, making it easy to view photos, videos, or presentations.

Automatic image configuration

The projector is equipped with a set of automatic image optimization features. Auto Focus ensures quick focusing, while automatic keystone correction allows you to adjust the image even when the projector is positioned at an angle. The automatic screen fit and obstacle detection features ensure the image remains properly aligned without the need for manual adjustment. Additionally, zoom adjustment is available from 50% to 100%, allowing you to adjust the image size without changing the projector’s position.

Clear Full HD image with HDR10 support

The Aurzen Eazze D1G offers a native resolution of 1080p and supports HDR10 technology. This ensures a detailed image, and the contrast between light and dark scenes is more visible, improving the viewing experience for movies, TV shows, or gaming. The projector also supports 4K video signals transmitted via HDMI. When an external device, such as a TV Stick or console, is connected, it is possible to play content labeled as 4K. The image is then displayed at the projector’s native resolution, which is Full HD (1080p).

Built-in Speakers with Dolby Audio

The projector is equipped with two 8-watt speakers. Dolby Audio technology enhances sound quality, making dialogue clearer and sound effects more immersive. The device can also function as a Bluetooth speaker or be connected to an external audio system, soundbar, or headphones.

Stable wireless connectivity

Dual-band Wi-Fi (2.4 GHz and 5 GHz) ensures a stable network connection when using streaming apps. The projector also supports two-way Bluetooth, allowing you to stream audio to external speakers or use the projector as a wireless speaker.

Extensive device connectivity

The Aurzen Eazze D1G features a range of ports for connecting various multimedia devices. The HDMI port allows you to connect a laptop, game console, or set-top box, while the USB ports enable playback of files from external storage devices. An additional 3.5 mm audio jack allows you to connect headphones or an external audio system. This makes the projector ideal not only for movies, but also for games, presentations, meetings, or outdoor events.

Included

- Projector
- Remote control (batteries not included)
- Power adapter
- User manual
