AURZEN D1Air Projector

The AURZEN D1Air is a compact projector that combines native 1080p Full HD resolution, 4K support, and 280 ANSI lumens of brightness, delivering a clear and detailed image in a variety of lighting conditions. Thanks to HDR10 technology and a 1500:1 contrast ratio, every scene gains greater depth and natural colors, even in darker scenes. The package is rounded out by built-in speakers with Dolby Audio, which deliver clear, immersive sound without the need for additional equipment.

Clear picture and cinematic colors

The projector offers native Full HD 1080p resolution, which translates to a sharp and detailed picture when watching movies, TV shows, or presentations. Support for 4K content allows you to enjoy modern video sources without losing quality. HDR10 technology improves color reproduction and contrast, making the image look more realistic while keeping details visible in both bright and dark scenes. A brightness of 280 ANSI lumens, combined with various operating modes such as High,

Standard, or Eco/Eye-Care, allows you to adjust the projection to current lighting conditions.

Sound that fills the room

The 8W speakers, which utilize Dolby Audio technology, are located in the projector’s base, resulting in a more spacious and clear sound. This ensures the sound is well-distributed and synchronized with the image, enhancing your viewing experience without the need to invest in additional speakers.

Smart TV without additional devices

The built-in Smart TV OS allows you to use popular apps such as Netflix, Prime Video, and YouTube—without the need to connect external devices. This convenient solution simplifies operation and lets you quickly access your favorite content. Additionally, the projector supports screen mirroring via AirPlay, Miracast, and DLNA, enabling wireless image transmission from Android and iOS devices.

Real-time automatic image adjustment

The AURZEN D1Air is equipped with Auto Keystone and Auto Focus features that operate in real time. This means the projector automatically corrects keystone distortion and adjusts focus without interrupting the projection—even while moving the projector. As a result, achieving a perfect image is quick and hassle-free regardless of where the device is set up.

Stable connectivity and convenient control

Dual-band 2.4G/5G Wi-Fi ensures smooth data transfer and a stable internet connection, while Bluetooth 5.2 allows for seamless connection of additional accessories. The projector can be controlled using both an infrared remote control and the Aurzen Hub AIR Remote App Control mobile app, offering greater freedom and convenience.

Portability and flexible power options

Its compact dimensions (approximately 25.65 × 13.72 × 10.92 cm) make the projector easy to carry and suitable for use in various locations. Power delivery via the USB-C PD port allows you to charge it

using a laptop charger, USB-C power adapter, power bank, or power station.

Adjustable design for the perfect angle

The projector features a continuously adjustable stand that securely maintains the selected projection angle without the risk of tipping over. This practical solution allows you to quickly adjust the image settings to suit various surfaces and usage conditions.

Included:

- Projector
- Remote control (batteries not included)
- Power adapter
- Dust cleaning accessories
- User manual
