

# CLUB3D M.2 SSD Enclosure with Cooling Fan NVMe USB4 40Gbps

Model: CAC-2510

Manufacturer: CLUB3D

EAN: 8719214473952

Product Code: 1740552

## R2,729

Description:

• Overview: The CAC-2510 is a compact USB4 M.2 NVMe SSD enclosure with a built-in cooling fan, delivering real-world speeds up to 3700MB/s for fast external storage.

• Key Benefits: The 40Gbps USB4 support eliminates transfer bottlenecks and handles heavy workloads with ease. Active fan cooling prevents thermal throttling and keeps the drive stable during long transfer sessions. Its pocket-sized design offers broad, plug-and-play compatibility across various host devices and multiple NVMe drive sizes.

• Technical Highlights: It features a USB4 to NVMe interface with 40Gbps bandwidth, fully compatible with Thunderbolt 3 and 4. The

enclosure fits M-Key and B+M Key NVMe SSDs in 2230, 2242, 2260, and 2280 sizes, and officially supports up to 4TB storage, though higher capacities are also possible. It includes a reversible USB-C port and a built-in cooling fan inside a pocket-sized 112.5 x 45 x 14 mm housing.

• Use Cases: It is ideal for repurposing an old M.2 drive after a laptop or PC upgrade, or expanding Mac storage. It also makes it easy to transfer massive media files and run heavy projects directly off the drive on the go.
