HUAWEI SmartGuard-63A-T0

Model: 01076984

Manufacturer: HUAWEI TECHNOLOGIES

EAN: 4262431424732

Product Code: 1740629

R17,904

The Huawei Fusionsolar SmartGuard-63A-T0 power control unit is designed to meet diverse environmental conditions with operational capabilities ranging from -25°C to 50°C. This device can handle humidity levels from 5% to 95% RH, ensuring reliability in various climates. With its robust design compliant with IP55 standards, this unit performs well in challenging environments.
Equipped with multiple interfaces, including LAN, RS-485, WAN, and digital inputs and outputs, the SmartGuard-63A-T0 facilitates seamless communication and remote management. It supports networking through Ethernet 10/100, RS-485, and IEEE 802.11 b/g/n, providing flexibility in connectivity options. Additionally, the power device offers convection cooling and metering accuracy of 1%, ensuring efficient energy management.
Product Description: Huawei Fusionsolar SmartGuard-63A-T0 - power control unit | Device Type: Power control unit - external | Weight: 17 kg | Output Voltage: AC 220/230/240/380/400/415 V | Networking: Ethernet 10/100, IEEE 802.11 b/g/n, RS-485 | Dimensions (WxDxH): 60 cm x 49 cm x 17 cm
