R1,007

3M™ Solus™ Safety Glasses 2000 Series are our stylish safety glasses which feature temple arms with an adjustable ratchet for a customised fit. The polycarbonate lens is available with anti-scratch and anti-fog coatings for increased durability and improved vision. Available in a range of temple arm colours and lens options.

For safety glasses with adjustable ratchet temples that provide a customised fit, use 3M™ Solus™ Safety Glasses 2000 Series. Our stylish safety glasses feature ratchet temple arms that can be adjusted to fit the user, a first for the Solus series. The polycarbonate lens is available with anti-scratch and anti-fog coatings for increased durability and improved vision. Available in a range of temple arm colours and lens options. An optional contoured brow guard is also available. Meets the requirements of EN166-2001 Standard as an Impact Rated Spectacle.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
