Experience Eclipsa Audio, 3D spatial audio technology that delivers immersive, powerful soundscapes like never before.

TV and Soundbar orchestrated in harmony

With Q-Symphony, AI separates voice and background sounds for playback through the optimal channel. Now you get crisper dialog and more immersive 3D surround sound, playing through your TV speakers and soundbar in complete synergy.

Sound calibrated for your space to perfection

Enjoy stunning sound that's tuned to your room with SpaceFit Sound Pro. This feature analyzes the space and adjusts the audio accordingly — even optimizing bass — for maximum clarity and immersion. Now you can enjoy the most ideal sound in your space or environment.

Catch each word without distractions

Active Voice Amplifier (AVA) Pro lets you catch each word, even in distracting environments. It enhances voice audio based on background noise around you and in the content you’re watching, so you can follow conversations without rewinding.

Sound optimized for each scene

Get the optimal listening experience for each scene with AI Adaptive Sound. Your Samsung soundbar recognizes the type of content you’re watching and automatically adapts audio settings to produce clear voices and detailed sounds.

Be a part of the game with dynamic sound

Dive straight into the gaming action in vibrant 3D sound thanks to Game Pro mode. Your soundbar automatically adjusts the audio when it detects a console connected to your Samsung TV. Plus, if you're playing via Samsung TV's Gaming Hub, it optimizes audio based on the type of game.

Enjoy rich bass, even at night

Enhance your movie experience even in the night time by muting the subwoofer. The main Soundbar still provides rich bass for your viewing pleasure.

Elevated center sound for an elevated reality

Sit back and hear sound where it's meant to be with Sound Elevation. The elevation filter boosts the center channel by using up-firing speakers to guide the sound up. The seamless blend of picture and sound makes it feel as though dialogue comes straight from what you're watching.

Consistent sound across channels for comfortable listening experiences

Auto Volume keeps the volume level smooth and consistent across different content sources by analyzing incoming audio signals. With fewer sudden volume changes, you get comfortable sound when hopping between shows, games or live TV.
