

dbramante1928 re-charge – Power Bank 5K WL Slim Qi2.2 25w – WHT

Model: CP05ACWH7273

Manufacturer: DBRAMANTE1928

Product Code: 1741630

R1,988

Experience next-generation wireless charging with up to 25W of fast, cable-free power for Qi2 25W devices. Fully backward compatible, it delivers 15W to Qi2 and 7.5W to Qi1 devices, ensuring older hardware stays supported.

Powered by advanced Semi-Solid State battery technology, it offers enhanced safety, longer lifespan, and slower capacity decline for reliable long-term performance. A strong integrated magnet ensures secure alignment and prevents accidental disconnections.

Despite its power, the design is ultra-slim at just 8.3 mm, lightweight, and pocket-friendly—comfortable to use while charging. The 5000 mAh capacity keeps your device running all day, ideal for travel, work, or long outings. Crafted with premium materials and an elegant aluminium back, it blends durability with modern style. It also supports wireless charging for AirPods and other compatible earphones, with an integrated LED indicator for quick status checks.
