FARMING AND TRUCKING SIMULATION PACK

T128 SimTask Pack is the ideal combination for farming and trucking simulation. Position your T128 racing wheel flat with the Steering Kit for realistic, immersive driving of heavy machinery and vehicles.

IMMERSIVE FORCE FEEDBACK

T128 offers HYBRID DRIVE Force Feedback, allowing gamers to really experience the fun and intuitive sensations of driving. Feel the weight of each vehicle, the bumps and impacts, the loss of grip in turns, and the types of road surfaces — directly in the wheel, as if you were really there.

VERSATILE RACING WHEEL

T128 adapts to all driving styles thanks to its 270° to 900° rotation angle and its round, lightweight wheel rim that takes full advantage of all the Force Feedback's power. The T2PM pedal set, alongside the racing wheel's magnetic paddle shifters, engine speed LEDs and 13 action buttons, lets you free yourself from having to use a gamepad.

ADJUSTABLE RACING WHEEL MOUNT

SimTask Steering Kit features a clamping system for desks between 0.6″ / 15 mm and 2.0″ / 50 mm thick, allowing T128's tilt and height to be easily adjusted without tools or disassembly. Quickly switch from one position to another — from car racing, to farming simulation, to trucking.

ROTARY SPINNER KNOB

T128 SimTask Pack includes a rotary spinner knob allowing for one-handed driving, for enhanced agility. Free up your other hand for simultaneous use of equipment controls, like a joystick or a shifter.

A COMPLETE ECOSYSTEM

T128 is compatible with PC (Windows 10/11), PS5 and PS4. For an even more complete experience of driving farming equipment, T128 SimTask Pack is an outstanding complement to SimTask FarmStick.
