Model: AA0173

Manufacturer: LOGILINK

EAN: 4052792074949

Product Code: 1742694

R1,345

Product information "Magnetic phone grip with LED light, BT 5.2, camera release, MagSafe compatible" from LogiLink

This magnetic smartphone holder is the ideal solution for anyone who wants to take professional shots with their smartphone. Thanks to the improved grip and integrated camera shutter release, it enables convenient one-handed operation. The included remote control provides additional flexibility. The holder supports both landscape and portrait shots and is compatible with all smartphones, including MagSafe. An LED and microphone holder is also integrated, as well as a 1/4” tripod thread. With a maximum charging weight of 300 g, the holder also holds heavier smartphones securely.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
