R18,589

The space of two QHD screens. Zero bezels in between. The G-Master Gold Phoenix stretches 5120 x 1440 DQHD pixels across a massive 49'' 32:9 VA display, wrapped in a deep 1000R curve that completely fills your peripheral vision. Built for speed, 240Hz, 0.5ms MPRT, and Adaptive Sync keep ultra-fast action fluid and tear-free, while 1.07 billion colors and an 80M:1 advanced contrast ratio bring incredible depth to every scene. When it’s time to switch from play to work, it transforms into
