Model: SDL-K5

Manufacturer: AVATTO

EAN: 6976037362463

Product Code: 1743235

R2,342

Avatto SDL-K5 smart fingerprint locker

Looking for a secure way to store your keys? Avatto SDL-K5 is a smart locker with access via fingerprint, Tuya/Smart Life app, PIN, IC card and mechanical key. Ideal for home, office, rental apartments or car - it provides quick and convenient access for you, your loved ones or guests.

5 ways to unlock

Avatto SDL-K5 gives you full flexibility with up to five methods of unlocking. You can use your fingerprint, enter a PIN, apply an IC card, open the locker via the mobile app, or use an emergency key if needed. This is ideal for families, businesses and owners of rental apartments.

Remote control - access from anywhere

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Connect the locker to the gateway to gain remote access via Bluetooth. This allows you to open the locker to a guest even when you are not at home. Use the Tuya or Smart Life app to manage users, assign permissions and view history.

Temporary open mode

Set up temporary unlocking at a time of your choosing so that, for example, your child can enter the house after school. This is a practical solution for scheduled visits, cleaning or short-term rentals.

Real-time protection and notifications

The device has warning sensors - if someone repeatedly enters the wrong code, starts hitting the device or drilling into it, the locker will send a notification to your phone. You can respond immediately, wherever you are.

Included

- Smart cache x1
- Keys x2
- Wood screws x4
- Expansion bolts x4
- User manual x1
- IC cards x2
- USB-C cable x1
- Handle x1
