Microconnect MC-POEINJ-EU not categorized

Model: MC-POEINJ-EU

Manufacturer: MICROCONNECT

EAN: 5715328144019

Product Code: 1743368

R1,352

The MC-POEINJ-EU is a single-port Power over Ethernet (PoE) injector designed for European electrical standards. It delivers reliable 48V DC power over Ethernet cables to compatible powered devices (PDs) such as wireless access points, IP cameras, and VoIP phones.
Supporting both 10/100 Base-T and Gigabit networks, this injector provides an efficient and cost-effective power solution that meets the IEEE 802.3af PoE standard.
Engineered for plug-and-play indoor use, the MC-POEINJ-EU features a compact design, integrated PD detection, and automatic classification to ensure safe operation. With an input range of 100–240V AC and a maximum transmission distance of 100 meters, it’s ideal for extending network power where outlets are limited.
