Bosch PSS 250 AE Orbital sander 24000 OPM Black, Green, Red 250 W

Model: 0.603.340.200

Manufacturer: BOSCH

EAN: 3165140337526

Product Code: 1743420

R2,752

The PSS 250 AE orbital sander from Bosch is the ideal solution for quick, accurate sanding using a powerful 250 watt motor, a 92 x 182 millimetre sanding surface and an orbital stroke rate of 14,000 to 24,000 opm. The Bosch microfilter system helps to keep the surrounding area clean. The built-in dust extraction element draws the dust directly into the microfilter box provided. What’s more, the PSS 250 AE includes a setting wheel so that the orbital stroke rate can be adjusted to the material in question.

Thanks to its 250 watt motor and orbital stroke rate of 14,000 to 24,000 opm, the Bosch PSS 250 AE is a powerful orbital sander that is perfect for providing quick results. However, it doesn’t mean you have to sacrifice on comfort thanks to the PSS 250 AE’s low-vibration design. The benefits of this practical feature are particularly noticeable on larger surfaces. Meanwhile, the setting wheel allows

the user to adjust the orbital stroke rate to the material in question. To keep dust levels as low as possible, the PSS 250 AE is equipped with a Bosch microfilter system that extracts sanding dust directly into an integrated microfilter box.

The sanding sheets for the PSS 250 AE can either be fixed directly to the sanding plate using the new micro Velcro-type fastening solution or can be secured using the special clamping system. Both options can be used. No matter which option you choose, the sanding sheet will always stay secure and provide good results, even in tough conditions. Surfaces on doors or cupboards can be sanded quickly and easily ready for further treatment. The orbital sander is particularly suited for use on wood, wood-based materials or painted surfaces. The softgrip coating helps to ensure that work with the sander is always comfortable, even for left-handed users. Any dust generated is collected by the microfilter system.

Thanks to its 250 watt motor and orbital stroke rate of 14,000 to 24,000 opm, the Bosch PSS 250 AE is a powerful orbital sander that is perfect for providing quick results. With a 92 x 182 millimetre sanding surface, the PSS 250 AE is a low-vibration orbital sander, making it the ideal tool to tackle larger surface areas. There is no need to worry about your hands getting tired, even over longer periods of use. The setting wheel enables users to pre-select the orbital stroke rate. This means that the tool can be adjusted to suit the material at hand. Meanwhile, the Bosch microfilter system uses a built-in dust extraction element to collect dust in the integrated microfilter box, helping to keep the area clean.

The Bosch PSS 250 AE orbital sander has large ergonomic handles covered in comfortable softgrip coating, making the tool easy to use with either one hand or two. Left-handed DIYers will also find the sanding tool easy and comfortable to use. The low level of vibration and the lightweight 1.6 kilogram design also help to increase the user’s level of comfort during use. As a result, even larger surfaces can be tackled with ease without any strain on the user. The integrated Bosch microfilter system is a further practical function. It collects dust in a semi-transparent plastic box so that the user can keep a constant eye on the remaining capacity. The box is easy to empty and can be reused any number of times.
