Ultra-Thin Design,

Extraordinary Performance

AX3000 Wi-Fi 6 Air Range Extender

Ultra-Thin and Minimalist Design

Archer Air E5 has a compact size of 210×148×8 mm and is even thinner than a wall outlet.

The pure white shell, minimalist lines and rounded corners form an elegant appearance and make Archer Air E5 better integrated with modern home interiors.

The LED and WPS 2-in-1 button on the front and the Type-C power port on the bottom further simplify Archer Air E5’s look.

Flexible Installation, Ultra Convenience

Archer Air E5 is designed to easily mount onto walls and offers multiple installation methods. With two 3M adhesives on its back and a plastic bracket accessory, you can paste or mount it on a wall.** Its freer placement also saves electrical socket space.

Live in the Fast Lane with WiFi 6

Armed with AX3000 WiFi 6, Air E5 is built to deliver a huge boost in speed, capacity, and coverage.

Smart Antennas for All-Round Coverage

Archer Air E5’s built-in smart antennas use intelligent algorithms to auto-detect your devices’ locations and switch to the optimal antenna arrays, ensuring all-round stable signals even in duplex houses.

Boosted WiFi Signals Throughout Your Home

Armed with 4× powerful FEM and built-in smart antennas, Archer Air E5 boosts WiFi signals throughout your home. Beamforming technology detects devices and concentrates signals towards them, especially in hard-to-reach areas.

Flexibly Create Whole Home Mesh WiFi

Archer Air E5 is EasyMesh-compatible. If you have any WiFi dead zones at home, simply add another EasyMesh router to further form your whole home mesh WiFi. No more searching for a stable connection. For a better network experience, we recommend combining with Archer Air R5.

Advanced Features Made for Speed

Adaptive Path Selection

Keeps your network running at top speed by automatically choosing the fastest connection path to the router.

High Speed Mode

Helps you get the most out of your HD entertainment by using one dedicated band as a backhaul and another as an access point to maximize the overall performance of your wireless network.

Control at Your Fingertips

Set up and manage your WiFi through the TP-Link Tether app from your phone (Android, iOS). Network management has never been easier.
