R5,774

Continuous Monitoring,

No Matter Where They Roam

Pan and tilt operation provides a 360° view of your nursery, while smart motion tracking keeps your baby in frame even as they move around.

Receive instant alerts when your baby needs you.

No subscription required.

HD Night Vision with Invisible Infrared

See the finest details at night as your baby sleeps soundly, undisturbed by the non-visible infrared night vision.

Includes three versatile mounting stands.

Easily install the camera anywhere† for the perfect view as your child grows.
