before.

## MINI-LED IFP

Redefine visual performance with the industry-leading Mini-LED IFP, offering 1152-zone local dimming for exceptional brightness, contrast, and detail. Ideal for immersive presentations and collaboration.

## FLAGSHIP DISPLAY

Delivering stunning color accuracy with 96% NTSC and ΔE≤1, the flagship display offers an ultra-high 1,200,000:1 contrast ratio, 500 nits full-screen brightness, and an impressive 1250 nits peak brightness for vivid, lifelike visuals in any environment.

## NON-GLARE SCREEN

The MAXHUB XBoard screen features Non-Glare Screen technology to reduce reflections and enhance visibility in bright settings. Its surface glass is coated with an anti-fingerprint layer to prevent smudges from touch.

## FLAGSHIP IMAGING

Unlock professional-grade imaging with triple 50MP cameras and a motorized flip design for dynamic shooting angles. Independent Quad-Core DSP delivers outstanding performance, while multimodal AI—featuring facial, audio, lip movement, and voiceprint recognition—delivers smarter, faster, and more intuitive interactions for every scenario.

## MULTIPLE-SPEAKER TRACKING

When multiple people are discussing, the screen splits to highlight each speaker.

## AUTO FRAMING

With auto-framing, MAXHUB XBoard display automatically adjusts to achieve the best angle based on the number of participants and their location, so it feels like a face-to-face interaction.

## SPEAKER TRACKING

Speaker-tracking technology locates the sound source in real time, ensuring the speaker is always the center of attention. It supports two active speakers with dual focus.

## INTELLIGENT FOCUS

Intelligent focus technology enables individual close-ups for multiple participants simultaneously, delivering an immersive in-person experience.
