Philips TAR3500/00 radio Portable Digital Black

Model: TAR3500/00

Manufacturer: PHILIPS

EAN: 4895229173743

Product Code: 1743879

R2,099

Stay connected and informed with this portable emergency radio. With multi-way charging, clear AM/FM reception, SOS alerts and an integrated power bank, torch and reading light, it's a must-have for camping, travel or emergency kits.

Multi-powered: USB-C, solar, AAA batteries, hand crank

When outages strike, this radio keeps working with USB-C, solar, hand crank or AAA battery power. Its built-in 2600 mAh power bank includes a USB-A output for charging phones and other small devices, so you can stay connected when the grid is down.

Portable, durable build. IP55 dust/water-resistant design

Designed for portability and durability, this emergency radio features an IP55 dust- and water-resistant housing for dependable performance outdoors. A compact build and long 530 mm carry strap make it easy to hang the radio in tents, vehicles or shelters, or even wear it while on the move.

One-button SOS alert. Siren with light and dog whistle

An easy-to-reach orange SOS button on the side of the radio instantly activates both the SOS alert and an ultrasonic dog whistle. A loud siren sounds while a flashing light signals for attention, helping responders locate you quickly in an emergency.

Stay informed with clear AM/FM radio reception anywhere

Digital AM/FM tuning and a clear, easy-to-read LED display make it simple to find stations quickly, while the extendable 550 mm aerial improves reception in remote areas. If there's an emergency, you'll get access to critical alerts and local updates when power or mobile service is unavailable.

Extra-long battery life. Up to 60 hours of play time

With its high-capacity 5200 mAh/3.65 V battery, this radio can play for up to 60 hours at moderate volume when fully charged. With multiple ways to power the battery, you're prepared for long trips, off-grid adventures and emergencies.

Torch, reading light and 3.5 mm headphone jack

You'll be able to navigate in the dark, illuminate tasks and listen privately thanks to the built-in torch, reading light and headphone jack. Both lights feature simple on/off operation for ease of use.
