Under the hood

OFFICIAL MICROSOFT FLIGHT SIMULATOR LICENSE

T.Flight Hotas 5 Microsoft Flight Simulator Edition is a complete flight equipment solution — excellent for beginner pilots who want to progress and enjoy their first immersive flight experiences in Microsoft Flight Simulator 2024. Plug & Play, it offers precise control, instant responsiveness and total immersion right from users' very first flights.

COMPLETE FLIGHT EQUIPMENT

The joystick's ergonomic design lets it adapt to all types of flight (air combat, space adventure, civil flight, etc.). Experience next-level sensations with T.Flight Hotas 5 Microsoft Flight Simulator Edition, the outstanding solution for making progress in an immersive flight experience. The joystick and throttle offer 14 action buttons, 1 rapid-fire trigger and 1 multidirectional hat switch, as well as 5 axes (including the Z-axis) for 16-bit precision.

DETACHABLE THROTTLE

Adapt to your gaming environment thanks to T.Flight Hotas 5 Microsoft Flight Simulator Edition's detachable throttle and weighted base. Choose to play on a desk or table, or on your lap: detach the joystick from its throttle to recreate real flight sensations, or keep it attached for greater stability and to take up less space.

DUAL RUDDER SYSTEM

Depending on your preferences, T.Flight Hotas 5 Microsoft Flight Simulator Edition's rudder function (which lets you rotate the aircraft around its vertical axis) can be used by rotating the flight stick grip (the joystick's Z-axis) for better control, or via the progressive tilting lever for more realism.

GREAT FOR ALL TYPES OF FLIGHT

T.Flight Hotas 5 Microsoft Flight Simulator Edition offers next-level piloting comfort during your sessions thanks to its adjustable flight stick grip resistance, wide hand rest and ergonomic button layout — designed for all types of aircraft. It's great for civil and military aircraft, helicopters and gliders.

ECOSYSTEM

For even more realistic flight sensations and incredible control of your aircraft’s lateral movements, T.Flight Hotas 5 Microsoft Flight Simulator Edition is compatible with the Thrustmaster TFRP rudder pedals system (sold separately) featuring S.M.A.R.T. (Sliding Motion Advanced Rail Tracks) technology.
