ARCTIC P14 PWM Pressure-optimised 140 mm Fan with PWM

Model: ACFAN00223A

Manufacturer: ARCTIC

EAN: 4895213703109

Product Code: 1745050

R1,345

The P14 PWM features completely redesigned fan blades and is optimised for high static pressure. Thanks to this, it is especially effective when used on heatsinks and in situations with higher air resistance.The wide RPM range from 200 to 1700 RPM can be regulated steplessly via PWM.The newly developed motor with a low coil temperature significantly increases the life span of the fan. Therefore we have extended the warranty to 10 years.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
