management, putting you in full control.

500 cd/m2 brightness

With 500 cd/m2 brightness for better visibility, the Philips Signage 4050 display is designed to be used 24/7, making it a great selection for travel and transportation hubs, retail centres, food and beverage locations, and more. FailOver is also included enabling your display to switch automatically between primary and secondary inputs should an outage occur.

Easily mounted in landscape or portrait.
Install in portrait or landscape orientations, with size variants to suit a range of installation purposes across the range of settings and industries.

Proven reliability. No need for external media player.
Tried, tested, and proven intuitive user experience, with a professional Android 10 SoC built in for easy apps and solutions integrations and no need for an external media player.

Remote management with Philips Wave

Manage your display and control content remotely with Philips Wave Controller – your evolutionary ecosystem designed to support time, energy and cost efficiencies. Discover software applications to support your interactive vision from our network of proven partners on the PPDS ProStore.

Add optional Philips ScreenShare

Add in the fully secure and GDPR-compliant optional Philips ScreenShare presentation software for instant and effortless content sharing, using any device, on any network, and without additional hardware.

Supporting business sustainability and energy savings.
