The OPPO SUPERVOOC power adapter is designed to deliver fast, reliable charging for a range of devices while remaining compact and travel-friendly. GaN technology helps reduce size and heat, allowing the adapter to provide up to 80 watt output without a bulky charger footprint. Dual output ports include USB-C and USB-A connections for charging two devices at once, and the Europlug (power CEE 7/16) input supports use with compatible wall outlets for straightforward setup.
