Ubiquiti UVC-G6-Dome-B IP Security Camera with Night Vision and 1341 Degree Viewing Angle

Model: UVC-G6-Dome-B

Manufacturer: UBIQUITI

EAN: 5715328116610

Product Code: 1745929

R6,561

UNMATCHED 4K CLARITY WITH ADVANCED AI TECHNOLOGY

The Ubiquiti G6 Dome Camera delivers stunning 4K resolution through its 1/1.8" 8MP image sensor, ensuring every detail is captured with exceptional clarity. Enhanced by a Multi-TOPS AI Engine, this camera excels in smart detections, including face recognition, license plate recognition, and the ability to identify people, vehicles, and animals. This advanced technology not only enhances security but also streamlines monitoring in high-traffic areas, making it an ideal choice for discreet installations.

ROBUST AND RELIABLE FOR ANY ENVIRONMENT

Designed to withstand the elements, the G6 Dome Camera features an IP66 weatherproof rating and IK10 tamper resistance, ensuring durability in outdoor settings. Whether exposed to rain, snow, or vandalism, this camera remains operational, providing reliable surveillance in any condition. Its aluminum alloy enclosure and polycarbonate mounting materials further enhance its resilience, making it a dependable choice for long-term use in various environments.

EXCEPTIONAL NIGHT VISION FOR 24/7 SURVEILLANCE

Equipped with built-in IR LED illumination, the G6 Dome Camera offers impressive night vision capabilities, allowing for clear monitoring up to 30 meters (98 feet) in complete darkness. This feature is crucial for maintaining security during nighttime hours, ensuring that no activity goes unnoticed. The camera's night mode, combined with its high-resolution imaging, guarantees that even in low-light conditions, the footage remains sharp and detailed.

VERSATILE INSTALLATION OPTIONS AND SMART FEATURES

The Ubiquiti G6 Dome Camera provides flexible mounting options, including ceiling and wall mounts, with additional accessories available for specialized installations. Its networking interface supports a 10/100 MbE RJ45 port, facilitating seamless integration into existing systems. With customizable image settings such as brightness, contrast, and HDR, users can tailor the camera's performance to meet specific surveillance needs, ensuring optimal results in any scenario.
