DJI Power fast car charger cable

Model: DY0027

Manufacturer: DJI

EAN: 6941565995667

Product Code: 1746315

R1,837

DJI Power fast car charger cable

The DJI Power fast car charger cable is an indispensable accessory for vehicle owners who want to take advantage of DJI Power's advanced charging technology. With its help, you can quickly and efficiently power up your vehicle and other devices, providing them with stable power at all times. Invest in this high-quality cable and enjoy the convenience and safety of using the DJI Power 1.8kW charger.

Compatible with 12V and 24V systems

The cable is designed with wide compatibility in mind. It is suitable for 12V and 24V vehicle systems, making it ideal for both older and modern vehicles. Another important point is that the input voltage of the car's charging terminals must not exceed 45V, ensuring safe use in different types of vehicles.

Increased charging power with DJI Power 1000

By combining with the DJI Power 1000, the cable can achieve a maximum charging power of 1,800 watts. However, in order to achieve this maximum power, it is necessary to connect the power station to an additional DJI Power Expansion Battery 2000. This configuration allows for fast charging and full use of the system's potential.

Included

- DJI Power 1.8kW charger cable
- fuse box
- 60A fuse
- M2.5 x3 allen screw

Manufacturer DJI

Cable length 5 m

Compatibility DJI Power 1.8kW car/solar charger
