FREEWELL Filters for Insta360 Luna Pro (4-piece set)

The Freewell Everyday Creative Filter Kit for Insta360 Luna Pro is a set of 4 photographic filters that allow you to achieve a variety of effects when recording videos and taking photos. The set includes ND1000, CPL, Glow Mist 1/4, and LPR filters, designed for various lighting conditions and applications. With these filters, you can reduce light reflections, enhance contrast and color saturation, achieve a long-exposure effect, or give your footage a more cinematic look. This is a practical solution for both everyday shots and creative landscape, urban, and night photography.

ND1000 Filter – Stunning Photos with Long Exposure Times

The ND1000 filter significantly reduces the amount of light reaching the lens, allowing you to use longer exposure times even in bright conditions. This allows you to achieve the effect of silky-smooth

water, blurred clouds, or light trails from moving vehicles. As a result, you can create more dynamic and creative photos, emphasizing movement in selected elements of the frame.

CPL and Glow Mist 1/4 Filters – Vivid Colors and a Cinematic Look

The CPL polarizing filter helps reduce reflections and glare on surfaces such as water or glass. At the same time, it enhances contrast and color saturation, making the sky, vegetation, and landscapes appear more natural and vivid. The Glow Mist 1/4 filter, on the other hand, gently softens the bright areas of the image, creating a subtle glow around light sources. This gives photos and videos a softer, more cinematic look, especially when shooting portraits and scenes with high-contrast lighting.

LPR Filter – Better Results When Shooting at Night

The LPR filter is designed to reduce unwanted color casts caused by artificial lighting. It helps reduce the impact of light pollution, allowing night landscapes, cityscapes, and photos of the starry sky to take on more natural colors. This is a useful accessory for shooting after dark, when light from streetlamps and other light sources affects the appearance of the entire frame.

Included

- ND1000 Filter
- CPL Filter
- Glow Mist 1/4 Filter
- LPR filter

Manufacturer	Freewell
