LIFE Collection

Explore the collection

We want to be the source of practical ideas that make everyday chores a little easier, life less complex and more pleasant. We created solutions that contributed to a Life Simplified. And we created Life Collection. We offer you effective, easy to use and carefully designed small kitchen helpers. Explore and choose between matching smoothie maker, table grill, sandwich makers, hand mixers, hand blenders, food dehydrator...

Easy to use and to clean

It's up to you. Insert the sandwich plates or grilling plates and replace them if you prefer delicious waffles. The plates can be swapped in an instant. All plates are made of solid aluminium alloy and treated with non-stick coating. After the plates cool down just give them a swipe with a cotton cloth.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Even Heating

With the automatic temperature control, you don't have to worry about cooking sandwiches or waffles at a temperature that is too low or too high. All you have to do is choose the doneness - light, medium, or well - by choosing the cooking time.

Easy to clean

All three sets of plates are made of quality aluminum alloy and coated with non-stick coating. This prevents food from sticking to the plates, from burning and allows fat free cooking. It also makes cleaning easy. After use and when plates are cooled down, swipe them with cotton cloth and they are prepared for another use.

No mess and tangling around

No more cord tangling thanks to the smart design. Cord winder is built into the base, making cord management a breeze.

Find its place

This small and compact versatile sandwich maker will find its place on any kitchen counter. It can be stored standing upside and it looks modern and timeless.

Safety simplified

Handle comes with the safety locking clip and is useful for carrying sandwich maker around.
