Immersive Gaming, Smooth Streaming

Enjoy stable network for online gaming and live streams with flawless video and clear audio. OFDMA allows
clients to transmit both on uplink and downlink using one band at one time, which cut the latency and ensures a responsive network.

Broader Coverage, Larger Capacity

With clearer and stronger signal generated with Wi-Fi 6 and Beamforming technology, Archer AX17 delivers data to devices far away by focusing less-interfered wireless signal towards them.

- Intuitive Web UI – Ensures quick and simple Installation without hassle
- Fast Encryption – One-touch WPA wireless security encryption with the WPS button
- Hassle-free Management with Tether App – Network management is made easy with the TP-Link Tether App, available on any Android and iOS device
- Guest Network – Provides separate access for guests while securing the home network
- Access Control – Establishes a whitelist or blacklist to allow or restrict certain devices to access the internet
- Parental Controls – Manage when and how devices can access the internet
