D-Link AC1300 MU-MIMO Nano USB Adapter

Model: DWA-181

Manufacturer: D-LINK

EAN: 790069450600

Product Code: 1746982

R1,134

Easy Connection to Wi-Fi

Any high-speed wireless network is now within reach of your devices with the D-Link AC1300 MU-MIMO Wi-Fi Nano USB Adapter. It uses wireless AC1300 technology, giving you speeds of up to 867Mbps (5GHz) or 400Mbps (2.4GHz).

Add Wi-Fi On the Fly

The AC1300 MU-MIMO Wi-Fi Nano USB Adapter plugs into any USB port for plug-and-play convenience. Its small size ensures your devices get wireless access without bulky antennas or large dongles. And with a simple installation process, any device can be turned into a wireless online device. Add Wi-Fi to computers without hassle.

More Compatibility, Less Hassle

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

While the AC1300 MU-MIMO Wi-Fi Nano USB Adapter allows you to connect to wireless networks at cutting-edge 802.11ac speeds, it’s also backwards-compatible with older 802.11n/g/b/a wireless – so you'll always be able to get connected no matter where you are.

Portable Design

Whether you’re at home using a desktop computer or out and about with a notebook, the DWA-181’s sleek design is perfect for mobility and convenience, so that you can take advantage of Wireless AC’s super-fast speed wherever you are.

What is Wireless AC Wave 2?

802.11ac Wave 2 is a networking standard that produces higher wireless speeds on the 5 GHz band. This means that you can enjoy clear, smooth streaming HD video from your favorite websites and services, lag-free online gaming, and clear audio and video calls over the Internet.
