

TP-Link TL-SG1210MP network switch Unmanaged Gigabit Ethernet (10/100/1000) Power over Ethernet (PoE) Black

Model: TL-SG1210MP

Manufacturer: TP-LINK

EAN: 6935364052683

Product Code: 1747036

R2,620

The **TP-Link TL-SG1210MP** is an advanced **unmanaged switch** designed to enhance network connectivity with its **10 Gigabit Ethernet ports**. Among these, **8 ports** support **Power over Ethernet (PoE+)**, allowing for the simultaneous delivery of power and data through a single cable. This capability makes the TL-SG1210MP an ideal choice for powering **PoE-enabled devices** such as **IP cameras**, **VoIP phones**, and **wireless access points**, eliminating the need for additional power

supplies and simplifying installation.

Equipped with a total of **9 RJ-45 Ethernet ports** that support **gigabit speeds** (10/100/1000 Mbps), the TL-SG1210MP significantly enhances network capacity and data transfer rates. With a **switching capacity of 20 Gbit/s** and a **MAC address table** that can store up to **4000 entries**, this switch ensures smooth and efficient data transmission, even in high-traffic environments. The device adheres to multiple networking standards, including **IEEE 802.3af**, **IEEE 802.3at**, **IEEE 802.3i**, **IEEE 802.3u**, **IEEE 802.3x**, and **IEEE 802.3z**, ensuring broad compatibility with various network protocols and devices.

The **TP-Link TL-SG1210MP** is an effective solution for expanding network connections in **homes**, **small offices**, or **enterprise environments**. Its robust design and advanced features make it a reliable choice for users seeking to optimize their network infrastructure. With its ability to power devices directly through the network cable, the TL-SG1210MP stands out as a superior option compared to traditional switches, providing both efficiency and convenience in one compact unit.
